New Gumming :-

India Security Press has recently introduced a new type of more effective gumming on postage stamps by replacing the conventional negetable gumming by a new synthetic gumming which ensures firm sticking of stamps on postal stationery (This gum is not glossy).

For firm adhesion, the public is advised to "Wet the Stamp well & Press,"

In order to bring this to the notice of the public it has been decided to print this slogan "Wet well & Press" printers name and control No. on India public postage stamps VI Definitive series/ New definitive series beyond perforation of sheets.
