

POSTAGE DUE

by GOG HORSMAN.

I heartily agree with Basil Cheverton's suggestion that someone should start research into the Postage Due marks of India. Perhaps one of our newer members who has not so far engaged in any project of this nature would like to get involved. If so, I am sure that a mass of information and material would be forthcoming from the members of the India Study Circle. The project should also embrace the "UNPAID" marks which usually accompany the Postage Due marks.

After reading the article (p.65 July-September 1974 "India Post") I had a quick look through some of my accumulation of covers and found sufficient to make up a page of drawings, and I give below the postal data of each cover. If anyone wants further information on any of them, I will be pleased to give it. The numbers correspond to the sequence of the drawings.
