
 ** SLOGAN CANCELLATIONS **

by BRIAN CARTWRIGHT.

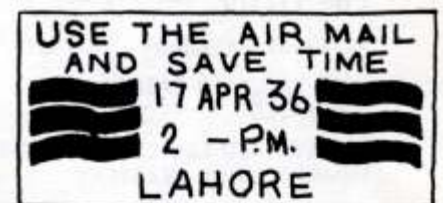

In "India Post" No.62 (1979), Mike Smith and David Padgham began their Classification of Indian Postal Markings. I hope that my listings will lead, eventually, to full information on Types A29 and A32.

My own collecting interests only cover the period to 1950, but where I have received information beyond this date I have included it in the lists.

There are gaps in the lists; I have read of other wordings in both types of cancellations, and I hope that members having different types will kindly supply me with tracings, photostats or photographs. It would be appreciated, and lead to an updated listing at a later date, if members will let me know of any earlier or later dates, and differing towns, to those which I have listed. I would like to thank fellow members both in the U.K. and India who have helped me to date.

As there are various sub-types of these two basic types of slogan cancellations, I have numbered them as follows:

- A29(a) - Box with date and time in centre flanked by wavy lines.
- A29(b) - Box with date and time in centre, no wavy lines.
- A29(c) - Box with date and time in centre, one or two letters replace wavy lines.
- A32(a) - Single circle, and to the right two wavy lines with slogan within.
- A32(b) - Single circle, and to the right, wavy lines with slogan and coat of arms.
- A32(c) - Single circle, and to the right, wavy lines with slogan. No coat of arms.
- A32(d) - Single circle, and to the right, a boxed slogan.
- A32(e) - No circle, two wavy lines, slogan within.
- A32(f) - Any type which falls into A32 category, but not within sub-types (a) to (e).

A29 (a)

A29 (b)

A29 (c)

A32 (a)

A32 (b)

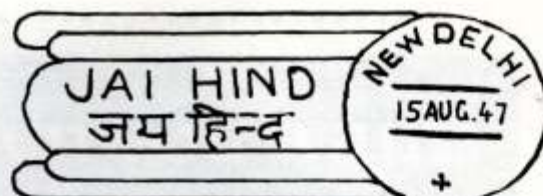

A32 (c)

A32 (d)

Clear and complete examples of slogans used on Burmese mail are exceedingly rare. The measurements given are as near accurate as possible. The pressure applied to handstruck stamps and the tendency of machine cancels to be elongated on many examples makes accuracy difficult.
