
 * SLOGAN CANCELLATIONS *

by BRIAN CARTWRIGHT.

Since my first Slogans Cancellations article, in "India Post" Vol.15/3 of July/September 1981, I have found further information regarding towns and dates of usage, and many members in this country and overseas have sent me information.

This listing contains all new information to hand since the first article.

Recently published is a book by A.K.BAYANWALA entitled *Slogans and Special Postmarks of India*. The book contains a welath of illustrations, but not too much information of the slogan markings.

There are a number of additions to my listing, and the update, but I shall still like to hear from any member who has further information.

Mr. Bayanwala has used his own form of numbering, which unfortunately only leads to confusion. The I.S.C. was attempting to clarify the system of numbering, starting with the Smith and Padgham article of 1979 ("India Post" No.62).
